1. The following is an examiner's statement of reasons for allowance:

The prior art fails to teach this specific combination of compounds with the required weight percentages and with the required pH for removing a photoresist from a copper substrate was not taught in the prior art of record. Nor would it have been obvious to modify the prior art of record to obtain such a combination of features.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
